

HFMA Easter Michigan Chapter

Certification Committee

2018-2019 Report

Chairpersons for 2018-2019: Kim Hauschild

2018-2019 Accomplishments:

- Presented at Fall Conference a certification overview session. The session was a short presentation at breakfast on day 2 and designed to answer questions on the new testing format. Kim Hauschild, presented material and study suggestions to those interested.
- Served as informational source on certification issues for chapter members.
- Created and maintained a list of certification candidates; communicate opportunities to candidates as they arise.
- Communicate with members who do not renew HFMA membership or who do not maintain certification requirements.
- 5 candidates have passed the exam for this year.

2019-2020 Goals:

- Continue efforts above (fall conference and committee sessions, attend webinars, presence in HealthCents, regional participation).
- Educate members who are not certified that with the all access membership, certification cost of the exam is included. With this change, we should see an increase in the number of new certified members.
- Maintain contact with list of candidates; forward education opportunities.
- Brainstorm ways to encourage candidates who may approach certification in different ways.
- Mailings to target groups, ex. new members or certified members who are eligible to fellowships.

Budget:

- \$0
